# Completion Definitions & Data Sources

## Definitions

**Completion** includes achieving one or more of the following: earned a certificate, associate degree, or transferred to a 4-year institution.

**All Students:** had an enrollment as a non-special admit student in at least one term of a selected year.

**Transfer Students:** Students who earned 12+ units at any college up to and including the selected year, who exited the community college system and enrolled in any 4-year institution in the subsequent year.

Former **CTE Students**, who after leaving community college did not transfer to another institution, self-report in a systemwide annual CTE Outcomes Survey whether they are employed in a job very closely or closely related to their field of study.
